

What is the unit structure for RVP?

The unit structure options available for coverage under this endorsement for each crop/county are enterprise units (EU), enterprise units by practice (EP), basic units (BU), or optional units (OU) as elected on your application. These unit structure options are hereby defined in the same manner as if such acreage was being insured under the MPCl policy with the same unit structure including the same qualification requirements as indicated in the underlying MPCl policy. If you fail to make a valid unit structure election on the application, the unit structure for purposes of coverage under this endorsement will be the same as that elected by you on your underlying MPCl policy.

Acreage not insurable under RVP includes:

Acreage identified as native sod, high risk, uninsurable, or unclassified, acreage planted prior to the earliest planting date contained in the Special Provisions, acreage which is prevented from being planted, acreage which is insured as a silage type under the MPCl policy, acreage which is double cropped and generally insured under the following another crop (FAC) practice under the MPCl policy, acreage of the underlying MPCl policy that is covered under the added county election, acreage of the underlying MPCl policy that is being insured by written agreement, or acreage of the underlying MPCl policy that is being insured under an organic practice.

The Rain and Hail Difference

The Rain and Hail Difference is what sets us apart from other agricultural insurance providers. Our commitment to always provide the best service possible to the American farmer and rural America, and our belief in a strong safety net for America's agricultural communities, make us a leader in the industry.

Unmatched Claims Service

Response in a loss situation brings out the true character of the company. Time and time again, Rain and Hail is there for our customers when they need us by providing:

- Tools to quickly and easily submit claims
- Prompt and accurate claims adjustment
- Expedited claim payments

Full Range of Products and Services

RVP

Revenue Plus

Rain and Hail

A Chubb Company

What is RVP?

RVP is a private endorsement product that provides additional revenue coverage for the same crop(s)/county(ies) insured under the Revenue Protection (RP) plan of insurance. If the unit structure for RVP is the same as for the underlying RP policy, a RVP loss will be triggered at the same time as the RP policy regardless of whether the loss is due to a yield loss and/or price loss.

How does RVP work?

RVP guarantee (per acre) is the amount determined by multiplying the revenue protection guarantee (per acre) by your RVP coverage percentage. The RVP coverage percentage is the coverage percentage elected by you on your application and accepted by us for coverage under this endorsement. The RVP coverage percentage you elect must be in accordance with the current crop year's RVP Underwriting Rules.

What coverage percentages are available for RVP?

MPCI Coverage Level	RVP Coverage Percentage Range (in 1% increments)
85%	10%
80%	10% - 15%
75%	10% - 20%
70%	10% - 25%
65% and below	10% - 30%

Application for coverage under this endorsement must be made on or before the applicable sales closing date for the crop(s) insured for the current crop year for the underlying MPCI policy. The RVP coverage amount will be determined by multiplying the RVP guarantee (per acre) times the insured acreage, and times your share. We cover damage to the insured crop(s) caused by an insured peril to the extent that such coverage is provided in the underlying MPCI policy. All provisions of the underlying MPCI policy not in conflict with this endorsement will apply. All applicable coverage elections, options, or endorsements in effect for the applicable underlying MPCI policy will also be in effect for this endorsement unless otherwise indicated in this endorsement (e.g. coverage level, trend-adjusted actual production history etc.). Prevented Planting coverage and replant payments are not covered by this endorsement. This is an annual endorsement and the coverage provided will be in effect for only one growing season from the date of application. Coverage provided under this endorsement is not reinsured or guaranteed by the Federal Crop Insurance Corporation.

This institution is an equal opportunity provider and employer.

Where is RVP offered?

RVP is available for corn and soybeans in AR, CO, DE, IA, IL, IN, KS, KY, LA, MD, MN, MO, ND, NE, OH, PA, SC, SD, TN and WI.

What is the RVP application approval process?

Applications under this endorsement must be made on or before the applicable sales closing date for the crop(s) insured for the current crop year for the underlying RP policy, and they must be received within 48 hours of the applicant's signature. All applications for this coverage are individually written and subject to Rain and Hail approval. Agents do not have binding authority for this coverage. Liability limits do apply and Rain and Hail reserves the right to deny applications due to liability and/or capacity limits. All acreage of the applicable crop(s)/county(ies) insured in which the insured has an insurable share must be insured under this endorsement.

Examples of Revenue Protection with Revenue Plus when the unit structure is the same for both products.

Example 1 - RP Harvest Price is less than the RP Projected Price

MPCI RP Coverage		Revenue Plus Coverage	
Approved Yield	200 bu.	RVP Coverage Percentage	20%
Coverage Level	75%	RVP Guarantee	\$135
Projected Price	\$4.50	(\$675 x 20%)	
Harvest Price	\$4.00	RVP Loss	\$23
Revenue Guarantee	\$675	(\$115 x 20%)	
Actual Production	140 bu.		
Revenue to Count	\$560		
MPCI RP Indemnity	\$115		

Example 2 - RP Harvest Price is greater than the RP Projected Price

MPCI RP Coverage		Revenue Plus Coverage	
Approved Yield	200 bu.	RVP Coverage Percentage	20%
Coverage Level	75%	RVP Guarantee	\$150
Projected Price	\$4.50	(\$750 x 20%)	
Harvest Price	\$5.00	RVP Loss	\$10
Revenue Guarantee	\$750	(\$50 x 20%)	
Actual Production	140 bu.		
Revenue to Count	\$700		
MPCI RP Indemnity	\$50		

Underlying MPCI Requirements

Revenue Protection – RP only (No RPHPE or YP)

Enterprise Units (EU), Enterprise Units by Practice (EP), Basic Units (BU), or Optional Units (OU)

You are required to report the number of intended acres of the crop(s)/county(ies) that you intend to plant and insure under this endorsement.

All applicable coverage elections, options, or endorsements in effect for the applicable underlying MPCI policy will also be in effect for this endorsement (e.g. coverage level, TA etc.).

Any reductions for late planted coverage under the MPCI policy will be applied in the same manner to coverage under this endorsement.

The prevented planting and replanting coverage provided in the underlying MPCI policy are not included as a part of the RVP coverage.

All applicable rules of the MPCI policy also apply to this coverage, unless otherwise stated here or in the endorsement.

The premium for this coverage is due at the same time as the premium for the underlying MPCI policy. Any premium owed to us for this coverage will be deducted from any losses.

This is an annual endorsement.
